

## Our Approach to Youth Sports

At the Y, our sports staff, coaches and volunteers all share a singular vision of helping all youth reach their full potential in life. We leverage the excitement and passion around recreational and competitive programming to create a healthy outlet for children to gain new skills, develop a sense of team and connect with positive role models.

Our Youth Sports philosophy is to allow kids to participate in a noncompetitive program with an emphasis on fun, development of character, and fair play. We believe our youth sports programs helps families and individuals grow personally, clarify values, improve relationships, appreciate diversity, develop leadership skills and most of all, have fun!

YMCA coaches lead players through drills and games that build skills, develop coordination and enhance a love of the game. We make sure everyone participates and we emphasize the development of character.

**At the Y, everyone is a winner!**
